HEADQUARTERS TO STAY IN NEW YORK

Suffragets Vote Against Chicago Proposition to Move.

Louisville, Ky., Oct. 24.—The Illinois delegation, having withdrawn its motion for the removal of national headquarters to Chicago after a long debate, the National American Woman Suffrage association, in convention here, at noon, voted unanimously to retain its New York base of operations. Chicago delegates gave notice that the fight would be renewed next year.

Improving Woman.

Suggestions for improving the "Gate of Hell" were outlined yesterday afternoon before the National Woman Suffrage convention by Miss Mary Johnston, the author of Richmond, Va. Miss Johnston professed her suggestions by quotations from Tertullian, likening her sex to the entrance to the infernal regions. In part she said:

"Woman," exclaims St. Thomas Aquinas, "woman is a rapidly growing weed, an imperfect being! Her body attains maturity more rapidly than

man's only because it is of less value, and nature is engaged less in her making. Women are born to be eternally maintained under the yoke of their lords and masters, who are endowed by nature with superiority in every respect, and therefore destined to rule."

"Woman!" exclaims Tertullian, "Woman!" you ought to go about clad in mourning, in rags, your eyes filled with tears of remorse to make us forget that you have been mankind's destruction! Woman, you are the Gate of Hell."

"What I wish to do for a few minutes is to consider how we can improve the Gate of Hell. Architecturally speaking, it is a matter of carrying aloft the widest which has done duty for so many ages, of enlarging and adorning it, of giving it height, nobility and splendor, of achieving in short a lofty and beautiful portal. We all have our ideas as to how the new Gate should be built. Its general appearance, beauty and utility. Probably every woman in this audience is busy nowadays making a mental blue print of a new Hell Gate. I have the floor, however, and I am going to give, very roughly and discursively, my own blue print."

Miss Johnston described how she thought the new gate might differ from the old "physically in sweep and power, fine and strong clean, noble lines; mentally, in education, the adornment of larger brains, the greater intellect, spiritually, with the nobler and wider heart, the true mother and lover of humanity."

"Keeping the old name for a moment, we may say that the production of a new and greater Hell Gate differs from other architectural propositions. Gates of stone and marble are made from without. Hell Gate will be built without hands, and the

architect lodges within. She can do what she will, and now the thing of all others to be desired is that she will it! The time has passed when indifference will be tolerated; women must arouse themselves to action; the crying needs of the time demand it, and with the ballot in our hands and with the will to produce better conditions our achievement will be unsurpassed."
